I'd love to hear about

Dear MARY,

Warm winter wishes!

Why yes, here in the northeast it is warm considering our recent weather. Last week we finally got above freezing temperatures!

Here it's imperative to keep our pipelines warm and active or they will freeze and possibly burst (*unfortunately I've been there and done that!*)! By the same token, the staff and board of a non-profit organization must do the same!

I highly recommend A Best Practices report from Bristol Strategy Group, [Teach Your Pipeline to Speak Fluent "Donor"](#).

Planning, managing, and strategizing are my specialties. Don't let your cash flow freeze up!

Give me a call for a consultation, sign up for one of my classes, or visit one of my speaking engagements to let me know how *a. von schlegell & co* might help you in your fundraising, governance and program needs.

Sincerely,

Abbie J. von Schlegell
